

Mudcat 40E

Remote Controlled Dredge

Innovative Environmental Solutions

Cutterhead

Remote Control

The Mud Cat 40E is a one-truck transportable, electric powered, radio remote controlled dredge equipped with the best 40 HP submersible pumps on the market. The Mud Cat 40E is built with reliable and quality components for dependable long-term use. There are only four moving mechanical parts on the dredge which minimises maintenance.

The Mud Cat 40E has a high torque cutterhead with corkscrew action to ensure high solids flow.

The safety and environmental benefits of the Mud Cat 40E are: -

- **Auto Sense®** - Automatically stops dredge from forward travel
- **Bottom Sense®** - Automatically follows the bottom contours
- **Radio Remote Sense®** - Remotely controlled from shore
- **Auto Greasing** - No on-board maintenance
- **Electrical Operation** - No on-board refuelling required
